

The Greater Northwest Region had many representatives at this year's Honors Institute held in Albuquerque, New Mexico. Speakers included; a performance by Quarteto Los Primos y Ballet en Fuego, Dr. Reza Aslan who talked about Christianity and Islam, Sonia Shah who talked about Pandemics, a play by Patricia Crespín & Company, Steve Winters who talked about his experience of being a photographer of big cats, and Jeff Lieberman who talked about the Future of Consciousness. We were taken to the International Balloon Museum, the Indian Pueblo Cultural Center, and the Petroglyph's National Monument so we could explore significant places of Albuquerque.
